Andrew's story

Andrew does not behave very well. He likes playing video games after school. He feels interested when playing video games. He does not like doing homework because he is lazy. He thinks doing homework is tiring.

At eleven o'clock at night, his mother tells him to stop playing video games but he does not listen to her.

In the morning, he sleeps at school. He is very tired. He falls asleep in all lessons.

Then, his teacher gets angry with him. The teacher scolds him. He needs to stay after school. Andrew's mother does not allow him to play video games again.

Teacher's comment: Well done Mimi. Your story is true for a lot of students unfortunately. You told it very clearly. You use great adjectives e.g. 'scolds' and 'lazy'. Very well done.
